Loc8tor Plus

$179.99

Locate Them Before They're MISSING!

Loc8tor Plus can help prevent your child from wandering off in a crowd or theme park, with the loc8tor, you can use this to help find them before they become missing. Loc8tor Plus was designed to alert you when your loved one has left a pre-set range on the handheld device and then to give you an audible alert and visual guidance to help locate your little one.

Set an invisible safety zone around your loved ones or valuables. If any of them move beyond the boundary you set, the vibrating alarm is activated, the homing tag is identified and the locating function begins! With Loc8tor Plus you have an added a level of safety for your most precious possessions.

Loc8tor Plus provides the following benefits:

- The discreet homing tags are easily hidden on your child so that anyone wishing to do harm will not notice that they are protected by an alarm and then remove the locator.
- Vibrating alert feature allows you to detect when your child exceeds the preset range even in noisy locations.
- Graphic Tracking Display: Does not rely only on an audible sound to alert you to the location of your child, but provides locating directions to help in finding them and can guide you to within 2.5 cm (1inch).
- Assign up to 24 tags to your unit: If you have more than one child to watch over this unit will allow 24 different tags to be attached to one unit. This is perfect for daycare operations! DOES YOUR DAYCARE HAVE LOC8TOR PLUS?
- Can also be used to keep track of pets, keys, computer bags, purses, cell phones, or any of your valuable items.
- Slim compact unit: Easy to carry in your purse or pocket.
- Panic tag allows child to set off a distress alarm.
- 183 m / 600 ft range*: Non-obstructed range nearly the length of 2 football field.

*Note: 183m/600ft range is based on clear line of sight. Actual range will vary depending on use, environment and location. Locator mode has been designed to help find your possessions. It should not be depended on to find people, but it is another tool to aid in your search. Alert mode has only been designed to act as an aid to warn against items getting misplaced, stolen, or lost. It is not a substitute or replacement for parental, guardian, or adult supervision.

What's in the Box?
The Loc8tor Plus includes the following:

- Compact Tracking Receiver (requires 2-AAA batteries, not included);
- One (1) Panic Homing Tag;
- Three (3) Homing Tags;
- Adhesive mounting tags; and
- key chain loops.
